Our Special Edition.

It is our intention to get out a special edition of the NEWS some time during the early part of October. It will be entitled "The Industrial and Souvenir Edition of THE NEWS." It will contain 24 pages of the same size as the NEWS, printed on good book paper bound in a handsome cover. The front page will be covered with a large engraved cut showing a birds-eye view of the town as it is today. Also one as it appears to-day with its spiers and steeples and sky scrapers, together with views of its principal streets, showing the contrast between the past and the present. Its pages will be liberally interspersed with photographs of our public buildings, business houses, private residences and churches, both in the town and in the country. There will also appear photographs of our prominent men and last but not least our pretty women, for which Bulloch has now become noted from one end of the state to the other. It will be a write up of the town and county, showing its progress and its many advantages not only to the home folks but to the homeseeker. It will take many instances of the strides made by those who have moved in with us, in other words it will be a publication which will not only be read by every man, woman and child in Bulloch but will be mailed by the thousands throughout the state. We will spare no expense in its make up. We know you have been faked by worthless special sheets but it is our intention to put out something that will eclipse anything ever sent out from this section. A limited number of advertising spaces will be sold and our representative will call on those business men who have public spirit enough to put themselves before the public in a publication which will be universally read and preserved. Look out for our Special Industrial and Souvenir edition. We intend it shall be a hummer.

New Show Coming.
On Thursday night, the 4th of September, an amateur troupe of Savannah's young people will present to the Opera House a play for the benefit of the Baptist Church in Savannah, and we can promise to all who come out an evening of rare enjoyment.

The play is a comedy, "Mr. Bob," and the cast is as follows: Miss Rebecca Luke (Aunt Beckey)—Miss Lucie Morel. Jenkins (the butler)—Mr. Vindex Hand. Patty (the maid)—Mrs. Kate Laffitte. Katherine (Miss Beckey's Niece)—Miss Kate Kittles. Philip (Miss Beckey's nephew)—Mr. Herman Overstreet. Marion (Mr. Bob, Katherine's friend)—Miss Sadie Norman. Mr. Brown, (who is several people in one)—Mr. Walter Moore.

At the end of the play they will present a delightfully funny farce in one act, called: "Popping by Proxy;" a regular side-splitter, in which there are six characters, taken from the cast of Mr. Bob, with the exception of Uncle Hez, an anxious father, who pops the question for his beautiful son, and has reason to be sorry for it, this part is ably filled by Mr. A. S. Anderson who will keep you laughing for half an hour.

We hope this entertainment will receive liberal patronage, as the cast is taken from the local talent of our sister town, and is also for a very worthy cause.

Admission fee will be: 25c for adults; children, 15c; reserved seats, 50c.

MISSED THE HAMS.

The announcement came out in Sunday papers of the award of the two Qutman prizes, one a prize of six Brooks county hams and the other a barrel of golden drip syrup given by the Board of Trade of Qutman to the editor giving the first and second best write up of Qutman and Brooks county. The hams were awarded to the Carnesville Advocate, and the syrup to the Elberton Tribune. We have seen neither of the articles and cannot say what they were like, but it is said the one who got the hams gave a six column write up for the prize. Gee whiz! Wasn't he writing for hams though. The News gave three and a half columns to it and while we have always been taught that there was no limit to space yet we thought there was a limit to the kind that newspapers use, but in this contest it seems that there was not.

We hope that our good friend in North Georgia will not be salvaged on those fine Brooks county hams. They are a rarity to the average North Georgia editor. We follow down here in fact, they are just common every day eating. We have eaten so many until we are sorter falling out with them, our subscribers throw in one occasionally with a subscription. Why bless your soul this is somewhat of a ham growing country itself. We don't like hams now, especially so when they are awarded to the other fellow.

It Nees A Tonic
There are times when your liver needs a tonic. Don't give purgatives that gripe and weaken. DeWitt's Little Early Riser expel all poison from the system and acts as a tonic to the liver. W. They never gripe or distress."

CAPTAINS OF INDUSTRY.

Mr. W. M. Foy is one of them.
Nothing succeeds like success. The world owes much to every citizen who aids in the progress and building up of his country. Whether he be the one horse farmer who by daily toil makes two blades of grass grow where only one grew before, and who raises a respectable family of boys and girls, or the captain of industry who manages and controls great interests and furnishes labor to others, deserves well of his country.

Mr. Manassas Foy now a resident of Statesboro belongs to the class properly termed captains of industry, because he is the owner and manager of great interests, and diversified business, and has in his employ a large number of people. He is the owner of about twenty thousand acres of land in Bulloch, Tattnall and Effingham counties.

In Bulloch he has about eleven thousand acres situated near Statesboro and around Adabelle. At the latter place, his firm, Foy & Williams, operate a large turpentine farm and employ about 125 persons, and will make this year about 1800 barrels of spirits. Around Undine, in Tattnall county, Mr. Foy owns 8000 acres of land, and also conducts a turpentine still, and will make this year about 1200 barrels of spirits, and there employ about 75 people.

In addition to his large naval stores business, Mr. Foy cultivates about 800 acres of farm lands in Bulloch and Tattnall, and will gather this year a hundred bales of sea island cotton and 10,000 bushels of corn. The railroad from Register to Hagin runs through his lands, and as soon as the saw mill timber is cut off, he expects to clear up and cultivate five thousand acres. This will make him the largest farmer in south east Georgia.

Mr. Foy was born in Effingham, the first year of the civil war, and is in the prime of life, and is an all round business man who has found the ladder of success. All of his business is systematized, and he can sit in his handsome home in east Statesboro, and over a telephone overlook his business enterprises. Like all men who achieve lasting success, he is strictly temperate. Mr. Foy married Miss Maxie, the eldest daughter of the late W. W. Olliff, and they have several children.

Thrown Out Of The Jury Box
We understand that the Jury Commissioners while revising the jury list last week threw out of the box the names of all the men who composed three panels of jurors who have brought in verdicts of acquittal in three different cases, where the defendant was clearly proven guilty. We did not learn what panels these were and have no more right to say than any one else, but it shows there is a time coming when a man will be punished for the violation of our laws. The sentiment of the people is growing in this direction.

His Slight Threatened.
"While pointing last month my 11-year-old boy was poisoned by some weed or plant," says W. H. Dibble of Sioux City, Ia. "He rubbed the poison off his hand into his eyes and for a while we were afraid he would lose his sight. Finally a neighbor recommended DeWitt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever. For skin diseases, cuts, burns, scalds, wounds, insect bites, DeWitt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeits."

Doet It Pay To Buy Cheap?
A cheap remedy for coughs and colds is all right, but you want something which will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regulated climate? Yes, if possible, if not possible for you, then in either case take the only remedy that has been introduced into all civilized countries with success in severe throat and lung troubles, "Boesche's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but also relieves the inflammation, gives a good night's rest and cures the patient. Try one bottle. Recommended many years by all druggists in the world. You can get his reliable remedy at W. H. Ellis.

Carried a Big Crowd.
The excursion to Tybee on Sunday was the largest of the season. The Central train arrived here with five loaded cars and took on two of the Shoo Fly coaches which were well filled. It is said, by those who were aboard the train coming back, that there were one hundred drunk men on the train. They amused themselves between drinks by blowing cigarette smoke into the women's faces. There is a tough set that come from the vicinity of Hurry Hill and Gum Log. They are on every cheap excursion and always drunk. They seem to have been born drunk and suffered a relapse. They have a record of being able to drink more booze and "cuss" harder than any set this side of purgatory.

Next Sunday will close the season and we expect to see the boys along again. If they fail it will be the first time since the cheap Sunday excursion was inaugurated.

W. S. ANDERSON.

AFTER THE TIGER.

He is said to be blind but the folks want to open his eyes.

It seems that the tigers in some places have a rough road to travel. Up at Parish the people have made a continued fight on the blind tigers and have about run them out, and we have some of the former keepers on the chain gang. Driven from Parish, some of them swooped down on Pulaski, and a Sunday or two ago the town was overrun with drunken fellows, who literally made Rome howl, and now the good folks of that town propose to stop the business. The people of Statesboro have also been after a tiger on the south side of town, and are going to close it this week, and have it abated as a public nuisance.

The persons who have a hankering to sell beer and other poisonous soups had just as well understand that they will not be allowed to sell their stuff around Statesboro. As the law now stands, any citizen or citizens can apply to the judge of the superior court for an injunction and stop a blind tiger. One of the strange things about the fellows who run blind tigers, is the fact that they always insist that their stuff will not make a man drunk, when, in fact, that is exactly what it does do. To get drunk, is what people buy it for, and they are often seen drunk at, and coming from, such places, and everybody knows that beer and all such slops will make a man as drunk as regular moonshine or the old pop stuff.

If a man must sell drinks that intoxicate, let him go to a city where it can be legally sold, and not try to sell it under the noses of people in a dry town or county.

It does not pay in the long run, for, sooner or later, a man will come to grief, and the law will lay its heavy hand on him; and even if he escapes punishment by law, it is a notorious fact, that men who sell such stuff, either legally or illegally, never make any money out of it, in the long run, because that kind of wealth does not stick to a man nor his to his children; and besides, the liquor seller brings reproach upon himself and family. No decent man, who respects himself or family or his country, can afford to violate the laws of the land; because the law is higher and of greater force than any individual, and the best thing a man can do is to be a law-abiding citizen.

If he sells liquor or beer or cider in Bulloch county that produces intoxication to any extent, he is not a law-abiding man.

Around the blind tigers is the place where the loafers and bums congregate, and if a man is decent he will not remain so long, if he hangs around a blind tiger, for "evil communications corrupt good manners, and a man is known by the company he keeps. A young man had better be dipping turpentine boxes or splitting rails than to keep a blind tiger, and an old man had better be in the chain gang, and a woman had better be in jail, and one is there now.

Judge Evans has announced that for the second conviction for selling liquor or beer he will put a fellow in the gang without the benefit of clergy, or the privilege of paying out, and so, any way you take it, the blind tiger man finds Jordan a hard one to travel.
